

AC Portable/Wallbox EV Charger

Product Features :

- Highly compatible with new energy vehicle charging interfaces/protocols.
- Multi-intelligent detection: real-time voltage/current monitoring, precise power calculation & safety protection.
- 1.3" OLED display: standby/charging/fault status & parameters.
- Authorization modes: plug-and-charge, APP/button scheduling.
- Charging modes: auto-full, timed charging.
- 4-level adjustable current with memory (auto-restores last gear on power-up).
- Remote O&M platform: health diagnosis, fault (early warning), OTA upgrades (reduces costs).
- Product certified with ETL&CETL, FCC, IC; compliant with TÜVmark, CQC.

Applications :

- Suitable for home and industrial use.
- Suitable for carrying in the car, traveling charging, and emergency charging.

Specifications :

Item	ZA08-X03K5XX-X001	ZA08-X007KXX-X001
Input Voltage	AC220V±20%(CN)/AC230V±15%(EU)/AC240V±15%(US)	
Input Frequency	50/60Hz±1Hz	
Output Power	3.5kW	7kW
Current	16A	32A
Current Range	8A-10A-13A-16A	16A-20A-24A-32A
Display Size	1.3 inches	
Communication	WIFI&Bluetooth	
Gun Cable Length	3.5m/5m/7m/7.5m	
Temperature /Humidity	-30~ +50°C/5%~95%RH	
Protection	IP65	
Appearance Size	249.6mm×113.5mm×62mm	
Product Weight	<4.8KG	
Leakage Protection	Type A+DC6mA(CN, EU)/CCID20(US)
